

# Trustwave Software Engineer Intern

Trustwave helps businesses fight cybercrime, protect data and reduce security risk. With cloud and managed security services, integrated technologies and a team of security experts, ethical hackers and researchers, Trustwave enables businesses to transform the way they manage their information security and compliance programs. Trustwave delivers automated, efficient and cost-effective threat, vulnerability and compliance management. Trustwave is headquartered in Chicago, with customers in 96 countries. For more information about Trustwave, visit <https://www.trustwave.com>.

## Responsibilities

- Work in small, agile teams to design, prototype and build new product offerings and enhance existing products and tools
- Collaborate with Product Management to and identify, prioritize and document detailed product requirements
- Design, develop and document application and framework code in Java, Flex and other object-oriented programming languages
- Create robust automated unit/functional test suites and deployment scripts
- Work with internal QA team on system, performance and acceptance testing

## Technical Requirements

- Familiarity with agile/iterative development methodologies (XP, SCRUM, etc.)
- Object-oriented design and Java programming skills, including experience with leading open source frameworks such as Spring, Hibernate and JUnit
- Experience developing rich application UIs using Adobe Flex is highly desirable
- Familiarity with C/C++ or other object-oriented languages (e.g. Groovy, Python, Ruby) is also desirable
- Solid relational DBMS skills using MySQL, PostgreSQL or other DBMS products
- Real-world experience building very large scale, high availability applications
- Experience developing web services using XML-RPC, SOAP or REST approaches

## General Requirements

- Ability to work with distributed teams in a dynamic, iterative development process
- Excellent oral and written communication skills
- Working toward BS in Computer Science or Engineering is preferred

- Familiarity with the security industry is desirable but not required
